

# Y-151 Seal

## Temporary textile identification system

**Highlights** • Prints, cuts & seals in one step • 11 Colours of Thermo-Seal® tape • User friendly • Easy maintenance  
 • No solvents required, operator and environment friendly

### Speeds marking Helps prevent sorting errors Reduces sorting labour

Colour coded tags make sorting shirts a simple task. Shirts can be sorted into movable transporters or numbered rail clips right off the folder or finishing unit, reducing the amount of labour required.

Labels print clearly, adhere firmly, and yet peel off easily. Label length adjusts automatically to match number of characters!

### Store... day... week... lot... bundle

The Thermo-Seal® tag gives positive lot control to prevent costly, time consuming mix-ups and lost garments. Large, clearly printed letters and numerals make sorting easier. Four to twelve characters are set in seconds for any code. The tape, available in eleven solid colors, allows you to combine the color code with your printed code to make sorting even easier and faster.

### Thermo-Seal® tape rolls

This tape is specifically made for all Thermo-Seal® temporary marking machines. The eleven colours are orange, yellow, red, grey, lavender, white, green, pink, blue, gold and tan.

Adheres to cottons, poly/cotton blends, loose weave polyester and wools.

### Thermoflags® tags

Where Thermo-Seal® tape can not be applied directly to the garment, apply tape to a Thermoflags® tag and staple or pin to garment. Available in white.

### Ink ribbon cartridge #RC2410-15

This cartridge features black indelible ink ribbon that prints sharply and cleanly on Thermo-Seal® tape rolls. Print stays clear and legible through laundering, dry cleaning and finishing operations. The ink cartridge is very simple to snap into place.

A user friendly display
